RETALIATION FOR CANADA. EFFECT OF MR. CHANDLER'S AMENDMENT.

A PROPOSAL TO MAKE THE RETALIATORY LAWS OF THE LAST CONGRESS OPERATIVE.

[BY TELEGRAPH TO THE TRIBUNG.] WASHINGTON, June 5 .- When the open debate in executive session on the Fisheries Treaty is renewed, it will be supplmented in legislative session by an attempt to make the retaliatory laws of the last Congress mandatory and operative. Mr. Chandler introduced a bill for that purpose to-day. It strikes out the clause leaving it discretionary with the President to enforce the law, and amends the clause with which Secretary Bayard was careful to load down the bill, applying to everything else besides fish.

Mr. Chandler's amendment makes retaliation what retaliation should be-a retaliation in kind, and applies it only to fish. This knocks out the stock argument of Senator Morgan and others, that if the Retaliation bill of last session should be enforced in reprisal for any renewal of Canadian out-rages on our fisheries, it would produce far wider commercial disaster than the entire value of the fisheries interest.

"SUNSET" COX RUNS OUT OF STORIES. HE IS FORCED TO BRAW ON ESOP FOR A REPLY TO JUDGE KELLEY.

Washington, June 5 (Special).-The Committee the Whole House to-day passed six lines of the free list after a good deal of debate and after rejecting every amendment offered. It will need another day dispese of the lumber section of the new free list, including "logs." The eminent statesmen who framed bill did not appear to know that logs have been the free list for a number of years.

Judge Keiley read an amusing dispatch from New-ork to "The Public Ledger," of Philadelphia, giving the substance of a speech delivered by Thomas G. Shearman on Saturday night, in which Mr. Shearman was represented as stating to his audience that the Prevident had approved Judgo Kelley's bill imposing a duty of \$12 per ton on pig iron. On this foundation, when the structure is the state of the state o tion Mr. Shearman reared a famous superstructure howing the distress which would be caused to many thousands of workingmen by the shutting out of two millions of tons of fron, which he said is imported annually. Judge Kelley indulged in some pleasantry at the expense of S. S. Cox, who made a graceful reply. From his speech it will appear that the free traces have run short of original fables, and that oven Mr. Cox's inventive genius in that direction has been exhausted, for he had to draw on Aesop.

AMENDMENTS TO THE CENSUS BILL. Washington, Jan. 5 (Special) .- At a meeting of the Census Committee to-day two amendments to the Census bill were proposed, both of which the committee will probably recommend to the House. One offered by Mr. McKenns, of California, provides that in making the enumeration, the enumerators shall ascertain how many persons are Union survivors of the war, and how many women are widows of deceased Union soldiers. Such statistics, if obtained, will be valuable as a basis for future pension legisla-

The other amendment looks to the ascertainment of the indebtedness of individuals and corporations as shown by county and municipal records. To ascertain that fact for the entire country would require an outlay of something like one million of dollars, and Chairman Cox said that he doubted whether Congress would be willing to incur so large an expense. thought that if the facts were ascertained as to a few representative counties in each State it would afford the basis for an estimate of such innebtedness which would be substantially correct. Mr. Cox estimates that the population of the United States in 1890 will reach 64,600,000, and that the expense of taking the census will be about \$6,460,000.

CHANGES IN THE DIPLOMATIC RANKS.

Wasnington, June 5 (Special).-The amendment proposed by the Senate Committee on Appropriations the Diplomatic and Consular Appropriation bill are most of them morely verbal changes of rank in diplomatic representation, correcting anemalies which the absurd rules of the House will not permit to be corrected except by special legislation. For example, the Minister to the Argentine Republic under existing law is an Envoy Plenipotentiary, and the Minister to Venezuela, with the same salary and equally important duties, has only the rank of a Minter Resident, the lowest known to diplomatic ett

the United States in the transaction of public business The Senate proposes to make the Ministers Resident Belgium, the Netherlands, Norway and Sweden and Venezuela all Enceys without any addition to their pay. The only increase of appropriation pro-posed is one which General Honry 8. Sanford, formerly United States Minister to Belgium, has been on here urging, namely, \$25,000 for an exploring expedition of the Upper Congo basin.

CHANGES IN THE NAVAL SERVICE. Washington, June 5.-The President has nominated Captain William B. Remey, United States Marine | the plaintiff, with costs. Corps, to be Judge Advocate-General of the Navy, with the rank of Colonel in the Marine Corps, and First Lieutenant Francis Michler, 5th United States

Cavalry, to be captain.

The Secretary of the Navy has appointed William J. Baxter, Charles H. Hewes and Washington T. Capps to be assistant constructors in the Navy. All three have just completed a course of study in ship building at Glasgow. Commander William C. Wise has been ordered to take command of the United States ship Juniata, attached to the Asiatic station.

NO BOND OFFERS ACCEPTED. Washington, June 5.-The bond offerings to-day a gregated \$151,000, as follows: Regis ered to rs, \$50,000 at 127 7-8; registered four and a hairs, \$1,000 at 108 and \$100,000 at 107. None of the

THE SHEA INQUEST BEGUN.

Captain Gastlin, of the steamboat squad, yesterday brought to the Coroner's office Patrick Green, charged causing the death of Jeremiah Shea, during a scuffle at Pier No. 19, North River, on Monday. crowd followed the prisoner and witnesses from the station house to the Corener's office, and filled the little Court-room to overflowing. John Sullivan and John Hall, both longshoremen, were examined by Coroner Levy, but they were not eye-witnesses of the fight. Samuel Echenfield, a fruit pedier, stated that he saw He saw Shea going up the dock at 4 o'clock, Green was on his way to the bulkhead when he met Shea. Some words were passed between the two men about work, when suddenly Shea throw off his coat and shoes and struck at Green. The two men clinched and shoes and struck at Green. The two men camened and fell three times, and the third time Shea was under-neath. He then picked himself up and rushed on board a steamer. A ceach was summoned and he was taken to his home, where he soon died. Green did not make any statement. Coroner Levy set down the case for next Thursday afternoon and committed Green

MASTERLY INACTIVITY OF CLAN-NA-GARL. The dynamits scare in England, of which little has been beard in a long time, is again awakened in the English Capital, and two men, alleged to have been sent over by an Irish revolutionary organization on this aide of the water, are now reported to be on board the French steamer La Normandic, which sailed from Havre last Saturday. "It is the merest nonsense," said one of the several Clan-na-Guel lenders yesterday to a Tribune reporter, "to think that we would send a man to England in the present state of public feeling. Our present policy is not a dynamite policy, by sny means. We are simply watching and

"Does the organization ship dynamite to England ?" \* Not at all, and never-edid, so far as I know. When-ever we want to use dynamite there is plenty of it in Eng-

"Do men go over from here to explode it?"
"I cannot say. I know they do not tell their busi-

bess to detectives, as the cable dispatch in to-day's papers " Is there any plan on foot at present to go against the

rlismontary party?"
"This talk about dynamite," he said, "is at present a

arson. Two weeks ago be was discharged from the Orphan Asylum where he had spent five or six years. He wished to enter the service of the District Messenger Company, but his mother decided that he should go into the family of Mrs. E. M. Kingalani, No. 35 Elm-st., Elizabeth, where a home had been offered him. Accordingly he was taken there, but he promptly showed his disgust of his new abode by setting are to his bedroom within twenty hinutes after his prival. The fire was discovered before much damage had been done. "Bobby" confessed his erime and said he did it for revenge because he could not have his choice in the selection of employment. He will be sent to the State Reform School.

"THE FAIRFAXES IN AMERICA."

At the meeting of the New-York Historical Society last night a paper on "The Fairfaxes of America," which had been prepared by Mrs. Burton N. Harrison, in compliance with a resolution of the society, was read by Professor Carroll, instructor in modern languages at the Professor Carroll, instructor in modern languages at the University of the City of New-York. Mrs. Harrison is been given the owners to do their duty. Meanwhile Deherself a descendant of the Fairbrase, who figured so prominently in the history of Virginia, as well as in that of England, and in this paper, which was clearly a labor of more congenial quarters can be secured uptown.

love, gave a vivid picture of some of the most prom

MISS WOODHALUS MANY SECURITIES. A LONDON POLICE INSPECTOR GIVES A LIST OF THE PROPERTY HE TOOK FROM HER.

John Tunbridge, inspector of the Metropolitan Police London, by whom Alice Woodhall was brought to this country on extradition papers, to be tried on a charge of forgery, was examined in the Superior Court yesterday, in regard to the property taken from her at the time of her arrest and how in his possession. He stated that he had in his possession the follow-

ing property taken from Miss Woodhall: Forty-five pounds in Bank of England notes, interest coupons of six Hungarian 4 per cent gold bonds, bankbooks showing deposits in a bank in England not in her name, unt of which he could not state; coupons of bends of the Elizabethtown, Lexington and Big Sandy Bailway Company, coupons of bonds of the South Australian Government loan of 1836, coupons of Spanish Government 4 per cent bonds, and coupons of Argentine 6 per cent bonds. The value of the property he could not tell. He stated that there was ace in the examination in England, in the proevidence in the examination in England, in the pro-ceedings for the prisoner's extradition, showing that some of the bends were purchased with the proceeds of the alleged forgery.

Justice O'Gorman here adjourned the examination wettl 10:30 a.m. to-day, directing that United States Marshal McMaben be informed in the meantime that this statement had been made.

TO CURTAIL HOWELL OSBORN'S INCOME. A judgment for \$10,000 for money advanced to Howell Osborn, having been obtained against him by been returned unsatisticd in the absence of Mr. Osborn, who is in Europe, an application was made yesterday to Justice Andrews, in the Supreme Court, Chambers, on behalf of Mr. Stow, for an Injunction to restrain the trustees of the estate of \$500,000 left in trust for young Osborn by his father, Charles J. Osborn, from paying the defendant the entire income until the judgment is satisfied. James C. Carter, representing the defendant, declared that the application was premature, as no notice had been served on Mr. Osborn, and pronounced the judgment and execution only so much waste paper. Decision was reserved.

BITS OF LEGAL NEWS.

Charles S. Pine, one of the passengers of the Narragan-tt, which came into collision with the Stonington in June, 1880, and was burned to the water's edge, sued the Providence and Stenington Steamship Company for \$10,000 damages. He testified on the trial of the case in the Supreme Court, before Justice O'Brien and a jury yesterday, that when the collision occurred he rushed, half dressed, from his state-room, selzed a chair and jumped overboard. He managed to keep affeat until he was rescued. He was so chilled that a long sickness followed from which he has not yet recovered. The trial goes on

In the contest before Surrogate Ransom over the will of Charles G. Havens, the millionaire lawyer who left the bulk of his property to the Havens Relief Fund Society, a charitable organization founded by himself, John D. Jones and William H. Moore, executors of the will, corroborated the testimeny of Clifford A. Hand, the other executer, to the effect that it was underseed between them and the tes-tator that if the seciety could not legally take the bequest his executors should carry out his wishes. KNOCKED DOWN IN A BAR-ROOM. A 'LONGSHOREMAN STRUCK FOR DRINKING BEHIND

THE BAR. Policeman Brann, of the Delancey Street Squad, eaw an insensible man carried into the tenement-house No. 10 Jackson-st. yesterday afternoon. He made inquiries and learned that the man was Michael Walsh, a lengshoreman of middle age, who had a wife and several children living in the Jackson-st. house. The men who carried Walsh home said he had been knocked down by Michael Lally, in Lally's liquor store, at No. 272 Monroe-st. A brief examination convinced the policeman that Walsh was hurt dangerously. He went to the liquor store and found Lally proparing to leave the place. He arrested him, and at the police station he admitted to Sergeant Murct that he had struck Walsh. He said he went upstairs, leaving his wife in the store, and when he urned he found Walsh behind the bar helping himself to liquor. In a fit of anger he struck the 'longshoreman with his fist, but he declared that the blow did not kneck Walsh down, and he could not believe that the man was burt seriously. An ambulance carried Walsh to the Gouverneur Slip Hospital, where the surgeons found that his skull was fractured. Walsh's friends said he was a man not inclined to fight. They did not believe Laily's story about finding Walsh behind the har, and the police said such a story was improbable on account of Mrs. Lally's presence in the heavest

WHAT BECAME OF ALL THE EXCISE CASES? Forty-five policemen, including Captain McElwain and several sergeants and detective sergeants, who had received konorable mention by the Police Board but were not in the parade on May 31, received the new badges from President French in the Trial Room at Headquarters yesterday. The roll of merit of the department includes about 150 active policemen.

Some of the police officials yesterday expressed astonishment at the statements of Judge Barrett, in address to the Grand Jury, that 3,000 cases of arrest for violating the excise law were awaiting trial, and that the police had been lax in enforcing the It was said that the number of excise arrests was about 12,000 since Mr. Murray became superintendent, and that about 4,000 had been followed by convictions or negulitals. If only 3 000 cases had been pigeonholed, the officials say, it would be interesting to know what had become of the additional 5,000 arrested liquor dealers whose names are on the police records. Mr. Murray has said frequently that the excise law could be enforced in this city if the arrested liquor dealers were brought to trial.

CHARGED WITH STEALING A PIANO."

James F. Porter, fifty years old, who lives at ravesend, L. L., was arraigned at Jefferson Market Court yesterday. Two complaints were preferred against him. John W. Stokes, proprietor of the Hotel Brighton, Long Branch, swore that on February 25, 1886, Porter and his sister, Josephine Gibson, had sold him a plane which was at the Livingston Hotel, at Thirty-first-st. and Broadway, for \$250. He allowed the plane to remain at the hotel a few days longer, and when he called for it he found that it had en removed. He found it in the possession of J. R. Romaine, at No. 42 Union Square. Mr. Romaine told him that the piano had also been sold to him, and produced the bill of sale. Edwin Rubon, a drug-gist, made an adidavit that Porter called on him on April 20, 1886, and defrauded him of \$30. Justice Ford held Porter for examination in \$1,600 ball, which was furnished.

A PROCRUSTEAN STEAMSHIP CAPTAIN.

United States Commissioner John A. Shields held in ball yesterday Captain C. L. Rigby, of the steamship Wyoming, of the Gulon Line, on a charge of violating the laws for the protection of immigrants. The vessel it is alleged, contained berths of the width of 1 7-10 feet, while the law provides that berths shall be not less than two feet wide.

COULD HE IDENTIFY THE ROBBERS

William Walvogel, of No. 235 East Twenty-sixth-st., and Thomas Cooley, of No. 202 East Twenty-sixth-st, were held in \$5,000 ball such at Yorkville Police Court yesterday on the charge of knocking down William E. Waigley and robbing him of his watch on the evening of May 25.
Walkley was arrested the same evening for drunkenness, and the friends of the prisoners say that he was in no condition to identify them.

GRAIN AND PRODUCE MARKETS.

FEATURES OF NEW-YORK DEALINGS. The movement of the grain speculation yesterday vas on a moderate scale. There were no particularly new features developed, and operators are mixed in their opinions. Cash corn dropped 1-231 cent, with only 24,000 bushels taken by shippers, and under the fluence of heavy receipts West, and estimates of large arrivals here, the options were sold off 1-2@1 1-4 cents. The close was about steady, a shade above lowest prices, but down 1 cent for June at 61 and July at 61 1-2, 5-8 for August at 62, and 1-2 for tember at 62 3-8 cents. The shipping demand for wheat slackened, only 64,000 bushels being taken, and spot lots fell off 1-4@1-2 cent. The options went off 1-233-4 cent early, but under a demand from shorts prices sharply railled and closed steady at 5-8@3-4 cent higher, as follows: June 90 5-8, July 91 3-4. August 92 1-2, September 92 7-8 and December 95 5-8 cents. Cash oats were firm, but the options eased off 1-2 for June at 37 5-5, and 1-4 for July at 38 3-8, August at 34 1-4 being unchanged, and September at 33 1-2 cents 1-4 cent better. There was a further in-

33 1-2 cents 1-4 cent better. There was a further increase in the demand for cash lard, which resulted in sales of 550 tierces, aithough it could not be said whether the purchases were for shippers or not. The options were decidedly strong, and closed 13214 points higher, at \$8 al for June, \$8 s2 for July, \$5 s3 for August, and \$5 57 for September.

The receipts of grain and flour reported vesterday at New-York, Philadelphia, Baltimore and Boston were as follows: Wheat, 228,532 bushels; corn, 71,318 bushels; costs, 123,148 bushels; total grain, 422,905 bushels; flour, 39,701 packages. At Milwan-Re and \$8. Louis the arrivals were: Wheat, 130,569 bushels; corn, 570,609 bushels; gour, 46,233 barrels. THE TRADE IN CHICAGO.

Chicago, June 5 (Special).-The opening in wheat to day was at a fractional decline. The first figures were, however, about the lowest for the session. July wheat started at 84 1-4 and touched 84 1-8. The close was at 84 7.8a85. The decrease of 1,238,000 bushels in wheat was about as large as was expected, but had no influence. There was no great trading at any time Jenes, Kennett & Hopkins, who are now credited with doing the bulk of Cudaby's business, bought openly and through brokers a considerable line of August. It vas estimated that they took a million. The information was telegraphed from Detroit that its State agricultural report now ready would put condition of wheat at 65 and esti-the amount of wheat back in farmers' h at 1.000,000 bushels. August closed at 1-8a1-4 cents at 1,000,000 bushels. August closed at 1-Sai-4 cents under July. The receipts of corm including both Monday's and Tuesday's inspection, were 1,455 cars. Hutchinson had a big line of shorts to cover and when everybody clse was in a selling mood he was a buyer on a large scale. The opening was at a decime at 55 1-4 cents for July. The estimates for Wodnesday 600 cars, were large enough to further incide the selling tendency, and July got down to 54 3-8 cents. The charters were 13,000 bushels. These latter did more than anything else to steady the market. The close for July was at 54 3-4354 7.3. Outs acted about as corn did and were under the same depressing sort of influences, big receipts. Provisions were strong on small receipts of hors and on active buying of lard by Hutchinson and by Jones, Kennett & Hopkins.

CLOSING PRICES OF BOSTON STOCKS. Boston, June 5, 1888.

INTERESTING RAILROAD FIGURES. Tuesday, June 5-p. m.

Fourteen more railroads to-day reported their gross earnings for the fourth week of May, making the total number thus far reported thirty. Of the total, twenty companies, which return gains on the week of 1887, give aggregate earnings of \$2,240,837, against \$1,773,785-a gain of \$467,052, or 26.33 per cent. Ten companies which return losses give an aggregate of \$1,325,-064, against \$1,400,019-a loss of \$74,955, or 5.36 per cent. The whole thirty give an aggregate for the week of this year of \$3,565,901, against \$3,173,804-a gain of \$392,097, or 12,38 per cent.

The Chicago, Burlington and Quincy Company issues its statement of gross earnings, operating expenses and net earnings for the month of April. We trust that it is satisfactory to the stock and bond holders of the company. It is an exhibit more remarkable than even its statement for March, which included the period of the strike. The statement shows a decrease in the gross earnings of \$194,055 from those of

the strike. The statement shows a dectace the gross carnings of \$404,055 from those of April, 1887 (its tonnage of grain, etc., was larger), an increase in operating expenses of \$261,396, and a resulting decrease in net carnings of \$755,451. It was on May 25 that a "bear" authority stated: "Now I understand that Burlington earnings for April fell off \$700,000, and are falling off every week more."

There has been before no lack of evidence of a close alliance between the management of the Chicago, Burlington and Quincy Company and the leading "bears" of Wall Street. Circumstantial though it be, this early knowledge that the Burlington and Quincy would, ten days later, make a statement showing that it was not earning its interest charges is additional evidence of such an alliance. The reported loss in gross earnings may be accounted for by the company's "lighting" charges for freight; but with everything used by railreads selling at lower prices than one year ago, its increased charge to operating expenses of \$261,396—over 20 per cent—cannot be accounted for by anything except a method of bookkeeping. The company's net earnings for four months, as they have been reported, amount only to \$875, 156, while its interest charges for four months are over \$1,500,000. GOOD OPENING PRICES.

The stock speculation opened this morning with prices tirm and the early outlook exceedingly promising. All prices were higher, not only on a covering of "shorts," but also on some outside buying for the long account. But the official announcement at about noon that the syndicate which recently took \$24,656,000 Philadelphia and Reading 4s offered the bonds to public subscription at 871-2 was a wet blanket on the whole succulation, and again gave bonds to public subscription at 2.11-2. Was a blanket on the whole speculation, and again gave the "bears" the upper hand in the market. The sequel of the operation may be of a different character; but at first blush, the opinion gained currency that the Reading Company had been sacrificed by selling its 4s at 82 1-2 or lower. It never that the syndicate, under an occurred to any one that the syndicate, under an agreement, might offer the 4s at cost, and look to its \$11,000,000 first preference 5s for its profit at

er date. The announcement demoralized the whole market. Reading declined from 61 1-4 to 59 1-2a 59 3-4, and the whole list in proportion. The bears" took on a new supply of courage and sold the whole list. Burlington and Quincy's loss in not earnings in April temporarily more then offset the gains of 12.03 per cent by forty-six other companies. As to the Philadelphia and Reading loan at 87 1-2, it probably will be subscribed for many times ever, and it is not improbable that the allotment will leave the bulk of it in the hands of the individual members of the syndicate offering it. But, for the time, the price at which it is offered is a surprise to the the Street and a disappointment to the few that were hoping for good from its bringing out.

Control of the contro

ATTACKS ON ALL THE STOCKS.

The washing of St. Paul preferred at from 107.3-4 down to 103.3-4a1041-2 was continued without any resistance, and the common stock sold down to 64.5-8a64.3-4. This illustrates the effect of a bad name. The stock of Burlington and Quiney, the management of which carries an old good reputation, closed at 113, only 3-8 lower than last evening, despite its report showing that the company was not earning its fixed enarges. It is curious to listen to the different opinious expressed on the Street. Erie and Union Pacific cook their statements to make a good showing and Burlington and Quiney cooks its to make as bad an exhibit as is possible. All these things only show that stockholders are careless in giving their proxies for the annual elections; they probably were never less careless than when, at the recent election of the Burlington and Quiney Company, all the proxies were given to the old management—the highly respectful Beston direction. Despite the Pailadelphia and Reading loan, despite the Burlington and Quiney statement and all the "bear" influences, the market closed strong, although at about the lowest figures of the day.

Government bonds were quiet and steady at quotations as follows:

THE PETROLEUM MARKET.

NEWS FROM THE FIELD AND RANGE OF PRICES. The crude oil market opened 5-8 cent lower yester day at 77 1-2 cents, but the success of the bears was limited to ilest quotations. The shorts who covered their conracts later had to do so at a higher basis, but it is quesionable whether they did not have to keep out almost as large a line of new contracts as previously existed in order to recoup themselves at all from the low figures at which they had previously made sales The news from the oil country was bullish, the Mas Station well, which helped to start last week's scare, being reported to have fallen into the condition of sait-water producer. The market was variable an nervous, and frequent raids were made in values after an early raffy to above 79 cents. The remarkable figures prepared by the Producers' Protective Association may have had some influence, but the chance are that all the spirit of the rally came from Wesen buying, as New-York persisted in lagging behind the quotations at the Western exchanges. This was notable especially in the late transactions, when buying orders from the West were executed at 1 1-4 cent under the

halt which buyers fixed. There was a lively spurs near the close, which carried values to 79 78 cents near the close, which carried values to 79 7-8 ccats (a sale of 1,000 barrels was made at 80 coats), and the net gain of the day was 13-4 cents. Speculation is still unsettled but the market at 80 ceats has a smaller long luterest of flight calibre and a larger short interest than existed 5 or 10 cents higher. The market closed an mat d on the late bulge but still under the Western level of quotations.

The range of prices and the total dealings were at follows:

Refined oil was unchanged at 7 1-4 ents per gallon. Abel test, at all ports.
